CUSTOM NETWORK SERVICES TARIFF

ISSUED: April 1, 2005

EFFECTIVE: April 1, 2005

BY: Leslie Buford-Tariff Administrator

SECTION 1  
ORIGINAL PAGE 1

1. APPLICATION OF TARIFF

**ORIGINAL**

1.1 APPLICATION

1.1.1 General

This Tariff contains the regulations, rates and charges applicable to intrastate telecommunications services furnished by The AT&T Communications of the Mountain States, Inc. in the State of Arizona.

Effective July 31, 2001 all references herein to AT&T FCC Tariffs, insofar as the service offering set forth in the AT&T FCC tariffs have been or become detariffed, shall be construed to be references to the AT&T Business Services Guides located at <http://www.att.com/serviceguide/business>.

1.1.2 Jurisdiction

Jurisdiction refers to the classification of a Custom Network Service call as intrastate or interstate. Jurisdiction is a matter of law, not of Carrier discretion or policy, or Customer preference. The Law describing what constitutes interstate jurisdiction is the Communications Act of 1934, as amended. Some portions of this service are only subject to the jurisdiction of the Federal Communications Commission. This section covers the portion of this service that is subject to the Arizona Corporation Commission's Jurisdiction.

ARIZONA

CUSTOM NETWORK SERVICES TARIFF

ISSUED: April 1, 2005

EFFECTIVE: April 1, 2005

BY: Leslie Buford-Tariff Administrator

SECTION 2  
ORIGINAL PAGE 1

2. GENERAL REGULATIONS

2.1 UNDERTAKING OF THE CARRIER

2.1.1 General

The Carrier does not transmit messages. However, Custom Network Service may be used for that purpose.

Custom Network Service is furnished for the transmission of voice communications but may also be used for data, facsimile, signaling, metering, or other similar communications, subject to the transmission capabilities of the service. Custom Network Service is available twenty-four hours a day, seven days per week.

2.1.2 Transmission Medium

The Carrier selects and/or arranges for the channels and/or service components used to provide Custom Network Service. Any suitable technology or combination of technologies may be used. The Carrier may modify or change the channels and/or service components used to furnish Custom Network Service at any time subject to the regulations in Section 2.4, following.

2.1.3 Through Transmission of Signals

The Carrier is responsible for the provision of Custom Network Service from station to station. It is not responsible for the quality of transmission or signaling on the Customer's side of the interface at a Customer's premises. For AT&T MEGACOM WATS/MEGACOM 800 Service, the Carrier is responsible for the quality of transmission and/or signaling from the AT&T MEGACOM WATS/MEGACOM 800 Service Central Office to the called/calling station.

EFFECTIVE: April 1, 2005

BY: Leslie Buford-Tariff Administrator

SECTION 2

ORIGINAL PAGE 2

2. GENERAL REGULATIONS

2.1 UNDERTAKING OF THE CARRIER (Cont'd)

**ORIGINAL**

2.1.4 AVAILABILITY

Subject to compliance with Section 2.12, following, where a shortage of service components exists at any time either for temporary or protracted periods, the establishment of two-point Long Distance Message Telecommunications Service, provided under Tariff shall take precedence over all other services provided by the Carrier.

Service is furnished subject to the availability of the service components required. The Company will determine which of those components shall be used and make modifications to those components at its option. "Service components" shall include, but not limited to, the existence of access and/or billing arrangements on a originating and/or terminating basis. In the absence of access arrangement between the Company and the access provider at a particular Station, a Customer may be unable to place calls from or to the affected Station.

Service will be provided where facilities and billing capability are available.

2.1.5 RESTORATION OF SERVICE

The use and restoration of Custom Network Service will be in accordance with Part 64, Subpart D, of the Federal Communications Commission's Rules and Regulations.

SECTION 2  
ORIGINAL PAGE 3

2. GENERAL REGULATIONS

ORIGINAL

2.2 ESTABLISHING AND FURNISHING SERVICE

2.2.1 APPLICATIONS FOR SERVICE

Applications for establishment or changes of service may be made to the Carrier verbally or in writing. The Carrier or the authorized agent reserves the right to refuse an application for service made by a present or former Customer who is indebted to the Carrier or the authorized agent on the Customer's behalf for service previously furnished, until the indebtedness is satisfied.

2.2.2 CANCELLED APPLICATIONS

Applications for new service, additions or modifications which are cancelled before service is established or before the work is completed may result in a charge to the Customer for all expenses incurred before the cancellation notice is received. However, the charges shall not exceed those, which would apply if the work involved in the application or the request were completed, i.e., all applicable service connection, etc.

2.2.3 CANCELLATION FOR CAUSE

The Carrier by written notice to the Customer five days prior to termination, may immediately cancel the application for or discontinue service without incurring any liability for the following reasons:

- Nonpayment of any sum due the Carrier.
- A violation of any condition governing the furnishing of service.
- By order of a court or other governmental authority having jurisdiction.

SECTION 2  
ORIGINAL PAGE 4

2. GENERAL REGULATIONS

ORIGINAL

2.2 ESTABLISHING AND FURNISHING SERVICE (Cont'd)

2.2.4 OBLIGATION TO FURNISH SERVICE

The Carrier's obligation to furnish service is dependent on its ability to secure and maintain suitable rights and facilities, without unreasonable expense, and to provide for the installation and maintenance of those facilities.

2.2.5 OWNERSHIP AND USE OF FACILITIES

Facilities furnished by the Carrier on the premises of a Customer are the property of the Carrier. Carrier agents and employees must be allowed to enter the Customer's premises at any reasonable hour for installing, inspecting, maintaining, repairing the facilities, or removing them. This remains the responsibility solely of the Carrier, or its agents, unless otherwise specified.

2. GENERAL REGULATIONS

ORIGINAL

2.3 USE

2.3.1 Custom Network Service may be used for any lawful purpose consistent with the transmission and switching parameters of the telecommunications network. Custom Network Service is furnished for use by the Customer but may be used by others when so authorized by the Customer.

2.3.2 ABUSE

The abuse of Custom Network Service is prohibited. The following activities constitute abuse:

Using Custom Network Service to make calls which might reasonably be expected to frighten, abuse, torment, or harass another, or

Using Custom Network Service in such a way that it interferes unreasonably with the use of other Carrier Services.

2.3.3 FRAUDULENT USE

The fraudulent use of, or the intended or attempted fraudulent use of, Custom Network Service is prohibited. The following activities constitute fraudulent use:

- Using Custom Network Service to transmit a message, locate a person, or otherwise give or obtain information, without payment for the service,
- Using or attempting to use Custom Network Service with the intent to avoid the payment, either in whole or in part, of the tariffed charges for the service by:
- Rearranging, tampering with, or making connections not authorized by this tariff to any service components used to furnish Custom Network Service, or
- Using fraudulent means or devices, tricks, schemes, false or invalid numbers, false credit devices, or electronic devices.

SECTION 2

ORIGINAL PAGE 6

2. GENERAL REGULATIONS

ORIGINAL

2.4 OBLIGATIONS AND LIABILITY OF THE CARRIER

2.4.1 LIABILITY

The liability of the Carrier for damages arising out of mistakes, omissions, interruptions, delays, errors, or defects in transmission occurring in the course of furnishing service and not caused by the negligence of the Customer, or of the Carrier, in failing to maintain proper standards of maintenance and operation and to exercise reasonable supervision shall in no event exceed an amount equivalent to the proportionate charge to the Customer for the period of service during which such mistake, omission, interruption, delay, error or defect in transmission occurs.

The Carrier is liable for damages to a Customer's premises caused by its gross negligence or willful misconduct.

The Carrier is not liable to the Customer for certain claims, losses or damages arising from the use of service furnished under this Tariff, such as:

Claims for libel, slander, invasion of privacy, or infringement of copyright arising from any communication; claims for patent infringement arising from combining or using the Carrier service in connection with facilities or equipment furnished by others; or other claims arising out of any act or omission of others relating to the service provided by the Carrier.

The Carrier does not guarantee or make any warranty or accept liability for claims, losses, or damages with respect to its service when used in an explosive atmosphere.

The Carrier may require the Customer to sign an agreement before furnishing the service.

The Carrier is not liable for any act or omission of any other company or companies furnishing a portion of the service.

The Carrier does not transmit messages but offers the use of its facilities, when available, for communications between parties.

ISSUED: April 1, 2005

EFFECTIVE: April 1, 2005

BY: Leslie Buford-Tariff Administrator

SECTION 2  
ORIGINAL PAGE 7

2. GENERAL REGULATIONS

2.4 OBLIGATIONS AND LIABILITY OF THE CARRIER (Cont'd)

ORIGINAL

2.4.1 LIABILITY (Cont'd)

No license under patents (other than the limited license to use) is granted by the Carrier or shall be implied or arise by estoppel, with respect to any service offered under this tariff. The Carrier will defend the Customer and User against claims of patent infringement arising solely from the use by the Customer or User of Custom Network Service offered under this tariff and will indemnify such Customer or User for any damages awarded based solely on such claims.

The Carrier's failure to provide or maintain service under this tariff shall be excused by Labor difficulties, governmental orders, civil commotions, acts of God, and other circumstances beyond the Carrier's reasonable control.

2.4.2 PROVISION OF SERVICE

The Carrier will furnish and maintain its service components in a manner suitable for Custom Network Service. The Carrier will make available information as required by Part 68 of the FCC Rules and Regulations (e.g., the number of ringers that may be connected to a particular line). In addition, the Carrier will be responsible for the compatibility of its equipment of services with Custom Network Service when such equipment or services are connected to Custom Network Service at a central office.

The Carrier is not responsible to any party if a change in its Custom Network Service components, operations, or procedures, which is consistent with the Registration Program, (1) affects any facilities Customer equipment or Customer communications system provided by others in any way, or (2) requires their modification in order to be used with Custom Network Service. However, if such changes can be reasonably expected to materially affect the operating or transmission characteristics of the Custom Network Service or render any Customer equipment or Customer communications system incompatible with Custom Network Service, the carrier will provide adequate notice, in writing, to allow the Customer an opportunity to maintain uninterrupted service.

EFFECTIVE: April 1, 2005  
BY: Leslie Buford-Tariff Administrator

SECTION 2  
ORIGINAL PAGE 8

2. GENERAL REGULATIONS

2.5 OBLIGATIONS OF THE CUSTOMER

ORIGINAL

2.5.1 GENERAL

The Customer, authorized user or joint user shall provide, install, maintain and bear the expense of the provision of power required to operate Carrier facilities.

The Customer, authorized user or joint user is responsible for reimbursing the Carrier for any loss through theft or damage to facilities caused by negligence or willful acts.

The Carrier's facilities should be available for maintenance purposes at a time agreeable to both the Carrier and the Customer. An allowance will not be made for the period during which the service is interrupted for maintenance. For all channel services the facilities shall be available to the Carrier once in each twenty-four hours.

The Customer is responsible for provision, installation and maintenance of sealed conduit with explosive-proof fittings between facilities furnished by the Carrier in explosive atmospheres and points outside the hazardous area where connection may be made with regular facilities of the Carrier. The Customer must install and maintain service at locations within the hazardous area if, in the opinion of the Carrier, injury to employees or damage to property might result, unless otherwise specified in this Tariff.

2.5.2 ESTABLISHING IDENTITY

The calling party is responsible for establishing its identity as often as necessary during the course of a call.

The calling party assumes full responsibility for identifying the station, party, or person with whom connection is made at the called number or numbers.

2.5.3 COMPLIANCE WITH REGULATIONS

The Customer is responsible for placing any necessary orders and complying with tariff regulations for Custom Network Service and for assuring that its Users comply with tariff regulations.

EFFECTIVE: April 1, 2005  
BY: Leslie Buford-Tariff Administrator

SECTION 2  
ORIGINAL PAGE 9

2. GENERAL REGULATIONS

2.6 PAYMENTS AND DEPOSITS

ORIGINAL

2.6.1 PAYMENT OF BILLS

All charges for service and facilities exclusive of toll messages are payable in advance by check, money order, cash or electronically in lawful United States currency. Charges for toll messages are payable upon receipt of the bill.

The Customer is responsible for the payment of all charges for service, facilities and messages placed from or accepted at the Customer's station. Service may be terminated or suspended for non-payment.

Payment, which is not honored by the payer, bank or institution, will be considered as nonpayment, and a return check charge of \$25.00 will apply. When a local exchange company provides the billing function on behalf of the Company, the local exchange company's return check charge applies.

2.6.2 MINIMUM PAYMENT

The minimum payment period is the minimum period for which the Customer is required to make payment for the Custom Network Service ordered. The minimum payment period is calculated from the time that service is furnished, for usage charges, as appropriate.

Minimum payment period charges apply if the Customer discontinues service before the specified minimum payment period expires.

2.6.3 DEPOSITS

See AT&T Business Services Guides.

2.6.4 ADVANCE PAYMENTS

The Carrier reserves the right to require advance payments for service. The amount of advance payment is credited to the Customer's account and applies to any indebtedness under the contract.

ISSUED: April 1, 2005

SECTION 2

EFFECTIVE: April 1, 2005

ORIGINAL PAGE 10

BY: Leslie Buford-Tariff Administrator

## 2. GENERAL REGULATIONS

## 2.6 PAYMENTS AND DEPOSITS (Cont'd)

ORIGINAL

## 2.6.5 LATE PAYMENT CHARGE

Subject to billing and systems availability, when a bill or estimated bill for switched services charges is presented to the Customer, any amounts for which payment has not been received within 30 calendar days of the invoice date will be considered delinquent. The Customer may be assessed a Late Payment Charge on any delinquent account balance. The period subject to the Late Payment Charge shall commence on the 31st calendar day after the invoice date, and continue from month to month until the delinquent balance is resolved. The Late Payment Charge shall be assessed monthly, based on the delinquent balance maintained on the account at that time. The Late Payment Charge shall be an amount equal to the outstanding delinquent balance multiplied by the applicable interest rate. The interest rate shall be 18% annually, simple interest (1.5% per month, simple interest) unless an applicable law or regulation specifies a lower rate to be charged, and that lower rate shall then apply. The Customer shall not be charged a Late Payment Charge on a delinquent balance, however, if an applicable law or regulation prohibits the imposition of such charges.

In the event a Customer disputes, in good faith, the validity of any charges appearing on its invoice, the amount of these disputed charges will be excluded from the total delinquent balance while the dispute is pending. If the Company sustains the charges after investigating the dispute, the applicable Late Payment Charges shall be deemed correct and binding on the Customer. If, alternately, the Company credits the charges after investigating the dispute, the Late Payment Charges will not apply.

When a local exchange company provides the billing function on behalf of the Company, the local exchange company's local exchange service late payment charge applies. Late payment charges do not apply until after the due date of the bill on which the usage charges first appear.

2. GENERAL REGULATIONS

2.6 PAYMENTS AND DEPOSITS (Cont'd)

ORIGINAL

2.6.6 SPECIAL TAXES, FEES, CHARGES

Insofar as practicable, any sales, use, privilege, excise, franchise or occupation tax, costs of furnishing service without charge or similar taxes or impositions levied by the Federal, State or Local government, or any political subdivision or taxing authority against the Carrier may be billed by the Carrier to its Customers on a pro-rata basis.

2.6.7 NOTICE OF DISCONTINUANCE

A customer may provide 15 days prior notice for discontinuance after which billing for the discontinued service will cease, or:

A customer may request for immediate discontinuance of service and will be billed until the LEC disconnects the access service but such billing will not exceed 15 days.

2. GENERAL REGULATIONS

ORIGINAL

2.9 CONNECTIONS

When Customer equipment is connected to Custom Network Service it must comply with Part 68 of the FCC Rules and Regulations, 47 C.F.R. Part 68 (commonly known as the FCC Registration Program). When any equipment or system that is not subject to Part 68 of the FCC Rules and Regulations is connected, the Minimum Protection Criteria specified in this tariff must be met.

2.9.1 CONNECTION TO OTHER SERVICES

Custom Network Services may be connected to private networks or communications systems under the terms and conditions specified in that section.

2.9.2 CARRIER RESPONSIBILITIES

The Carrier is responsible for the quality of transmission from station to station.

SECTION 2

ORIGINAL PAGE 14

2. GENERAL REGULATIONS

2.9 CONNECTIONS (Cont'd)

2.9.3 CUSTOMER RESPONSIBILITIES

When Customer equipment or a Customer communications system is connected to Custom Network Service, the Customer assumes responsibility for the connection as follows:

- The Customer is responsible for the compatibility of its equipment or system with Custom Network Service. This responsibility applies at the initial installation and on a continuing basis as long as the connection is made.
- The operating characteristics of the Customer equipment or Customer communications system connected to Custom Network Service must not interfere with, or impair, any of the services offered by this Carrier.
- The Carrier is not obligated to alter or modify Custom Network Service because of additions or changes to Customer equipment or a Customer communications system.
- If a trouble condition occurs on an assembly, the Customer must determine whether the fault is in (1) the connected Customer equipment or Customer communications system, or (2) Custom Network Service. The Carrier will test and maintain only Custom Network Service.
- The testing of Custom Network Service will usually be made from a central office. The Carrier will not dispatch a repairperson to a Customer's or User's premises if a trouble condition (or suspected trouble condition) exists on the local exchange service. The Customer is responsible for requesting such dispatch from the provider of the local exchange service. The Customer is also responsible for the payment of such provider's charges, if any, for the dispatch.

2.9.4 CONNECTION REGULATIONS

Any system or service connected to a Custom Network Service offering must be operated and maintained so it will work satisfactorily with Custom Network Service. Connections to Custom Network Service will be made in accordance with the following:

- Answer supervision must be provided when a Custom Network Service offering is connected to switching equipment or a Customer communications system which is not subject to Part 68 of the FCC Rules and Regulations, 47 C.F.R. Part 68. In such cases, the equipment or system must provide answer supervision so that the measure of chargeable time begins upon the delivery of the Custom Network Service call to the switching equipment or to the equipment connected to the communications system and ends upon termination of the call by the calling party.
- The connection at the station used for Custom Network Service must be made so that it continually complies with the specified Minimum Protection Criteria, in 2.9.6, following.
- When a Customer communications system fails and the connection to Custom Network Service is not through switching equipment, the Customer communications system must be arranged to promptly return the Custom Network Service to an idle (on-hook) state. In addition, the Customer must notify the Carrier when the Customer communications system fails.

2.9.5 CONNECTIONS TO SATELLITE FACILITIES

If a Customer communications system uses satellite facilities (directly or indirectly), and is connected to Custom Network Service, there may be two or more satellite links involved in the combined connection. In such cases, the Carrier will not be responsible for any deterioration in transmission. It will continue to furnish Custom Network Service using the service components that it considers to be appropriate.

ORIGINAL REGULATIONS

## 2.9 CONNECTIONS (Cont'd)

## 2.9.6 MINIMUM PROTECTION CRITERIA

Minimum Protection Criteria have been specified so that Carrier personnel, equipment, and services will be protected from the harmful effects of a signal power overload, hazardous voltages and longitudinal imbalance. Minimum Protection Criteria apply to the direct electrical, acoustic, or inductive connections of Customer equipment, test equipment and Customer communications systems to the Custom Network Service.

Customer equipment, test equipment and Customer communications systems which are connected to Custom Network Service on a direct electrical basis or an acoustic or inductive basis, must comply with the following:

To protect other Carrier services, it is necessary that the signal that is applied at the station meets the following limits:

## A. METALLIC VOLTAGE

## 1. 4 kHz to 270 kHz

Center Frequency (f) of 8 kHz Band	Max. Voltage in All 8 kHz Bands	Metallic Terminating Impedance
8 kHz to 12 kHz	- (6.4 + 12.6 log f) dBV*	300 ohms
12 kHz to 90 kHz	- (23 - 40 log f) dBV	135 ohms
90 kHz to 266 kHz	- 55 dBV	135 ohms

\*dBV = 20 log<sub>10</sub> voltage in volts

2. The root-mean-square (RMS) value of the metallic voltage components in the frequency range of 270 kHz to 6 MHz shall, averaged over 2 microseconds, not exceed -15 dBV. This limitation applies with a metallic termination having an impedance of 135 ohms.

2. GENERAL REGULATIONS

2.9 CONNECTIONS (Cont'd)

ORIGINAL

2.9.6 MINIMUM PROTECTION CRITERIA (Cont'd)

B. LONGITUDINAL VOLTAGE

1. 4 kHz to 270 kHz

Center Frequency (f) of 8 kHz Band	Max. Voltage in All 8 kHz Bands	Longitudinal Terminating Impedance
8 kHz to 12 kHz	- (18.4 + 20 log f) dBV*	500 ohms
12 kHz to 42 kHz	(3 - 40 log f) dBV	90 ohms
42 kHz to 266 kHz	- 62 dBV	90 ohms

\*dBV = 20 log<sub>10</sub> voltage in volts

2. The root-mean-square (RMS) value of the longitudinal voltage components in the frequency range of 270 kHz to 6 MHz shall, averaged over 2 microseconds, not exceed -30 dBV. This limitation applies with a longitudinal termination having an impedance of 90 ohms.

To prevent the interruption or disconnection of a Custom Network Service call, it is necessary that the signal power applied at the station be limited. Specifically, the signal at the station shall at no time have energy concentrated solely in the 2450 to 2750 Hz band. If there is signal power at the station in the 2450 to 2750 Hz band, it must not exceed the power present at the same time in the 800 to 2450 Hz band.

2.9.7 DIRECT ELECTRICAL CONNECTIONS

In addition to the regulations in Section 2.9.6, preceding, Customer equipment, test equipment and Customer communications systems which are connected to Custom Network Service on a direct electrical basis must comply with the following:

To prevent excessive noise and cross talk, it is necessary that the power of the signal presented at the AT&T Central Office not exceed 12dB below one milliwatt when measured over any three second interval. To insure that this limit is not exceeded, the power of the signal which may be applied by the Customer equipment, test equipment or Customer communications system to the station will be specified for each Customer location. In no case shall the power exceed one milliwatt.

2. GENERAL REGULATIONS

2.9 CONNECTIONS (Cont'd)

ORIGINAL

2.9.8 ACOUSTIC OR INDUCTIVE CONNECTIONS

In addition to the regulations in Section 2.9.6, preceding, Customer equipment and Customer communications systems which are connected to Custom Network Service on an acoustic or inductive basis must comply with the following:

To prevent excessive noise and cross talk, it is necessary that the power of the signal which is applied by the equipment to the station located on the Customer's or User's be limited so that the signal power does not exceed 9 dB below one milliwatt when averaged over any three second interval. However, to permit each Customer, independent of distance from the serving office, to supply signal power which at the serving office, approximate 12 dB below one milliwatt when averaged over any three-second interval, the Carrier, at the Customer's request, will specify, for each Customer location, the signal power at the station, which shall in no case exceed one milliwatt.

2.9.9 CONVERSATION RECORDING REGULATIONS

Custom Network Service is not represented as adapted to the recording of two-way telephone conversations. However, voice recording equipment which is directly, acoustically or inductively connected with Custom Network Service may be used for the recording of such conversations subject to the following regulations which have been adopted by the FCC.

The voice recording equipment must be arranged so that it can be connected or disconnected (or switched on or off) at the will of the Customer. In addition, one of the following conditions must apply:

All parties to the telephone conversation must give their prior consent to the recording of the conversation, and the prior consent must be obtained in writing or be part of, and obtained at the start of, the recording, or

A distinctive recorder tone, repeated at intervals of approximately fifteen seconds, is required to alert all parties when the recording equipment is in use. The distinctive recording tone can be provided as part of (1) the recording equipment, or (2) registered or grandfathered protective circuitry.

2.9.10 BROADCAST LICENSE

A broadcast license shall be exempt from the above recording requirements provided at least one of the following requirements is met:

The licensee informs each party to the call of its intent to broadcast the conversation; or

Each party to the call is aware of the licensee's intent to broadcast the call; or

Such awareness of the licensee's intent to broadcast the call may be reasonably imputed to the party.

2.9.11 CONVERSATION RECORDING REGULATION EXCEPTIONS

The FCC has established the following exceptions to the foregoing requirements:

A. EMERGENCIES

Recordings made of incoming calls to telephone numbers publicized for emergencies involving health or safety of life and property (e.g., emergency situations involving fire, health care, police, public utilities and emergency road service) and outgoing calls made in immediate response to such calls. Included in this exception are:

1. Recordings made at the United States Department of Defense Command Centers of emergency communications transmitted over the Department of Defense's private line system when connected to Custom Network Service.
2. Recordings made by the United States Nuclear Regulatory Commission of the Department of Energy with respect to the telephone systems located at its Operations Center.

B. UNLAWFUL PURPOSES

Recordings of calls made for patently unlawful purposes, such as bomb threats, kidnap ransom requests and obscene telephone calls. Outgoing calls made in immediate response to such calls are also excepted. Included in this exception are:

1. Recordings made by the United States Secret Service of the Department of the Treasury for recording of two-way telephone conversations which concern the safety and security of the person of the President of the United States, members of his immediate family, or the White House and its grounds.

2.9.12 CONNECTIONS TO OTHER SERVICES

A Custom Network Service offering may be connected at a Customer's premises to other services provided by this Carrier, if they are electrically compatible. Connections at an AT&T Central Office may be made to Private Line Service furnished under this Carrier's Interstate Private Line Tariffs, as specified in the appropriate sections of those tariffs. All connections are subject to the regulations in this tariff and the regulations in the tariff under which the other service is furnished.

2. GENERAL REGULATIONS

ORIGINAL

2.10 RATES AND CHARGES

Any change to a tarified rate or charge at or below the maximum level shall not be construed as an application to increase rates. For services offered under this Tariff the rates and charges floor is set at long run incremental cost. In a Price List furnished to the Arizona Corporation Commission by this Carrier, the rates and charges are listed for service offered under this Tariff, which are applicable at any given time.

The Carrier will furnish the Commission a new Price List reflecting change(s) to rates and charges on not less than one-day notice prior to the effective date. New Tariff pages would be filed with the Commission for approval only when increasing maximum levels.

The rates and charges that are in effect in the Price List when Custom Network Service is furnished are the rates and charges used to determine the Customer's bill.

2.10.1 RATE DETERMINATION FACTORS

The rate for a Custom Network Service call is determined by factors such as:

- A. The distance between the rate centers of the originating (calling) station and the terminating (called) station; and, under certain conditions the distance between the V&H coordinates of an AT&T Central Office and the rate center of a station or the V&H coordinate of a AT&T Central Office.
- B. The time of day and the day of week.
- C. The duration of the call.

ISSUED: April 1, 2005

EFFECTIVE: April 1, 2005

BY: Leslie Buford-Tariff Administrator

SECTION 2

ORIGINAL PAGE 22

2. GENERAL REGULATIONS

2.10 RATES AND CHARGES (Cont'd)

ORIGINAL

2.10.2 REGULATIONS

The specific factors which apply to a given Custom Network Service call and their applications applicable to that type of call are listed in the Custom Network Services Tariff. The regulations pertaining to those factors are as follows:

A. RATES

The rate charged for a Custom Network Service call is determined in part by the day of the week and the time of day at the originating (calling) station or at the AT&T Central Office associated with the originating (calling) station using special or switched access. Different rates may be applicable to a call at different times of the day and on certain days of the week as specified in the appropriate rate section for that call.

B. CHARGEABLE TIME

The chargeable time for a Custom Network Service call is determined by the duration of the call. Chargeable time includes the initial period plus the additional time involved, if any, and is determined as follows:

1. On all calls, chargeable time begins when connection is established between the calling station and the called station.
2. Chargeable time ends when the calling station "hangs up". If the called station "hangs up" but the calling station does not, chargeable time ends when the connection is released either by automatic timing equipment in the telecommunications network or by the Carrier operator.
3. When Custom Network Service is directly connected to a Customer communications system at a Customer's or User's premises, chargeable time begins when a Custom Network Service call terminates in, or passes through, the first Customer equipment on that Customer communications system. It is the Customer's responsibility to furnish appropriate answer supervision to the point of interface with the Custom Network Service so that chargeable time may begin.

SECTION 2  
ORIGINAL PAGE 23

2. GENERAL REGULATIONS

2.10 RATES AND CHARGES (Cont'd)

ORIGINAL

2.10.3 DETERMINING THE APPLICABLE RATE IN EFFECT

Except for Custom Network Service calls that use a special access line, when the call is established in one rate period and ends in another rate period, the rate in effect at the calling station for each rate period applies to the portion of the call occurring within that rate period. When a calling station on a Custom Network Service uses a special access line, the rate in effect at the AT&T Central Office for each rate period applies to the portion of the call occurring within that rate period. When a unit of time is split between two rate periods, the rate applicable to that unit of time is based on the rate period in which it began.

Chargeable time for a rate period (e.g., 8 AM - 5 PM) begins with the first stated hour (e.g., 8 AM) and continues to, but does not include, the second stated hour (e.g., 5 PM).

SECTION 2

ORIGINAL PAGE 26

2. GENERAL REGULATIONS

2.12 VIOLATION OF REGULATIONS

ORIGINAL

2.12.1 General

The Carrier may take immediate action to protect its services or interests when certain regulations contained in this tariff are violated. The specific regulations involved and the action(s) that will be taken by this Carrier as specified following.

2.12.2 TEMPORARY RESTRICTION OF SERVICE

The Carrier may temporarily restrict service immediately when the Customer violation:

Circumvents the Carrier's ability to charge for its services as specified in Section 2.3.3 (Fraudulent Use) preceding, or

Results in an immediate harm to the Custom Network Service network or other Carrier services as specified in 2.9.6, preceding.

In such cases, the Carrier will make a reasonable effort to give the Customer prior notice before restricting service.

If a Customer fails to comply with Use, Answer Supervision, Customer Communications System failure and Minimum Protection Criteria, preceding, the Carrier may, on ten days written notice by certified U.S. Mail to the Customer deny requests for additional service and/or restrict service to the noncomplying Customer. If the Carrier does not deny or restrict the service involved on the date of the ten days notice, and the Customer noncompliance continues, nothing contained herein shall preclude the Carrier's right to deny or restrict the service without further notice.

When a violation results in a denial for additional service and/or restriction of service, the denial and/or restriction will be removed when the Customer is in compliance with the regulation and so advises the Carrier.

2.12.3 NONPAYMENT OF CHARGES

The Carrier may deny and/or restrict Custom Network Service for nonpayment of charges due as specified in Section 2.13, following. A written notice will be sent to the Customer at least five days in advance of the restriction and/or denial of Custom Network Service. Upon payment of charges the restriction and/or denial of Custom Network Service will be removed.

2. GENERAL REGULATIONS

2.13 TERMINATION OF SERVICE FOR CAUSE

ORIGINAL

The Carrier may terminate service, with written notice 5 days prior to termination, due to:

- Nonpayment, Abandonment, Obscenities, Abuse, Fraud, Harassment.

The Company or authorized agent will restrict access to the network when an account is delinquent; in the event of abandonment of a station; the use of foul or profane language over the line of the company; the use of service that interferes with another Customer's service or used for purposed other than communication; the impersonation of another with fraudulent intent. Abuse or fraudulent use of service includes the use of service or facilities of the Company to transmit a message or to locate a person otherwise to give or obtain information, without payment of a message toll charge; or use of the service to harass another person.

- If any law enforcement agency advises the Carrier that the service is being used for unlawful purposes.

The Carrier may terminate service, without written notice, due to the violation of Tariff regulations.

2.13.1 RIGHT TO REFUSE SERVICE

The Company reserves the right to refuse service to any applicant, or any applicant who wishes to establish service for a former Customer who has been found to be indebted to the Company for service previously furnished. The refusal of service will remain in effect until satisfactory arrangements have been made for the payment of all such indebtedness. At any time the above conditions become apparent to the Company, it may, at its discretion, terminate or suspend service until the prior indebtedness has been satisfied.

2.14 CREDIT ALLOWANCE FOR INTERRUPTIONS

When a Carrier-caused error or malfunction causes a Customer's service to be interrupted, the Carrier will provide a credit allowance not exceeding an amount equal to the proportionate charge that would have been billed to the Customer for the period of time the service was interrupted. However, if service is restored within 24 hours of the interruption report or detection by the Carrier, no allowance will be made. These same provisions apply when the Carrier requests the Customer to temporarily surrender their service.

2.15 PROMOTIONAL OFFERINGS

From time to time, the Carrier may offer goods and services at a reduced rate or free of charge for promotional, market research, or rate experimentation purposes. Such offerings will be for a limited duration and Customers will be so notified.

ACCESS LINE

A transmission path that connects a Customer premises to an AT&T Central Office.

ACCESS LINE GROUPING

An access line or group of access lines with the same identifying number. A group of access lines may be either standard or special access lines, but must be all of one type.

ACCESSORIES

Devices which are mechanically attached to, or used with, the facilities furnished by the Carrier and which are independent of, and not electrically, acoustically, or inductively connected to, the conductors in the communications path of the Carrier facilities.

ASSEMBLY

A configuration consisting of Customer equipment and/or a Customer communications system or systems, which is connected to Custom Network Services.

AT&T CENTRAL OFFICE

The physical point of access for a service to the AT&T interoffice network. Criteria for establishing AT&T Central Offices and a list of AT&T Central Offices with services provided can be found in the AT&T Business Service Guides.

AUTHORIZED USER

A person, firm or corporation who is authorized by the Customer or joint user to be connected to the service of the Customer or joint user, respectively. An authorized user must be specifically named in the application for service and on whose premises a station of the service must be located.

BUILDING

A structure consisting of an enclosed area surrounded by outside walls and under one continuous roof.

CALL

A completed connection established between a calling station and one or more called stations.

CALLED STATION

The station (e.g., telephone number) called, or the terminating point of a call.

CALLING CARD

A billing arrangement by which a call may be charged to an authorized Carrier Calling Card account.

CALLING STATION

The station from which the call is originated.

CARRIER

Refers to AT&T Communications of the Mountain States, Inc.

CENTRAL OFFICE

A switching unit providing telecommunications services to the general public for terminating and interconnecting lines. More than one central office may be located in the same building.

COMMERCIAL CREDIT CARD

A billing arrangement by which a call may be charged to an authorized commercial credit card number.

COMMON USER NETWORK

A network furnished by this Carrier which may be used by more than one Customer.

COMMUNICATIONS SYSTEMS

Non-Carrier dedicated channels and equipment furnished for communications between premises.

CONNECTING ARRANGEMENT

The equipment provided by the Carrier to accomplish the direct electrical connection of Customer facilities with the facilities of the Carrier.

CONNECTING COMPANY/CARRIER

Any telephone company or carrier whose facilities may be connected with those of the Carrier for the purpose of furnishing telecommunications services.

CONTRACT

The service agreement between a Customer and the Carrier under which facilities for communications between specified locations are furnished, in accordance with the provisions of this Tariff.

CUSTOMER

The person, firm, corporation or government agency contracting for service and responsible for the payment of charges and compliance with Carrier regulations.

CUSTOMER EQUIPMENT

Station or terminal equipment provided by the Customer, authorized user or joint user.

CUSTOMER COMMUNICATIONS SYSTEM

Dedicated private line channels and equipment (e.g., microwave or cable system) furnished by the Customer for communications between premises.

EXCHANGE

A geographical unit established for the administration of telecommunication services in a specified area.

56 KBPS SWITCHED DIGITAL SERVICE CENTRAL OFFICE

An AT&T Central Office where 56 Kbps Switched Digital Service is furnished.

GRANDFATHERED

A term which describes Customer equipment that was directly connected as specified below and that is grandfathered under Part 68 of the Federal Communications Commission, Rules and Regulations because:

- The terminal equipment was directly connected to the telecommunications network or local exchange services prior to July 1, 1979.
- The multiline terminating system was directly connected to the telecommunications network or local exchange service prior to January 1, 1980.
- The protective circuitry was directly connected to the telecommunications network or local exchange service prior to the dates set forth preceding.

HOME NPA

As used in connection with AT&T MEGACOM 800 Service, the NPA of the AT&T MEGACOM 800 Service Central Office from which a Customer has obtained service. As used in connection with AT&T 800 READYLINE the NPA from which a Customer obtains AT&T 800 READYLINE Service.

INTERFACE

That point on the premises of the Customer, authorized user or joint user where the channel service terminates and connection is made with Customer equipment.

LOCAL ACCESS AND TRANSPORT AREA (LATA)

A geographic area established by a local exchange carrier which delimits its operational area and may include points outside the state.

LOCAL EXCHANGE CARRIER

The carrier that provides local exchange service within an authorized serving area.

MULTILINE TERMINATING SYSTEM

Premises switching equipment and key telephone type systems which are capable of terminating more than one local exchange service line, WATS access line, channel service or communications system.

OFF-NETWORK CALL

A call between a station on a Custom Network Service and a station which is not associated with a Custom Network Service.

ON-NETWORK CALL

A call between stations on a Custom Network Service.

PREMISES

A building or buildings on continuous property (except rights-of-way, etc.) not separated by a public thoroughfare.

PROTECTIVE CIRCUITRY

Discrete electrical circuitry that is within the scope of the Registration Program and is designed to protect Custom Network Service from harm.

RATE CENTER

A specified geographical point within or outside an exchange area, from which mileage measurements are determined for the application of mileage rates for either channel services or message telecommunications services rates.

REGISTERED

A term which means compliance with and approval within the Registration Program.

REGISTERED EQUIPMENT

Equipment which complies and has been approved within the registration provisions of Part 68 of the FCC Rules and Regulations.

REGISTRATION PROGRAM

Part 68 of the FCC Rules and Regulations which permits Customer Equipment to be directly connected to Custom Network Service and certain circuits without the requirement for protective circuitry.

SPECIAL ACCESS LINE

A dedicated communication path that connects a Customer premises to an AT&T switched service using services obtained from the AT&T Business Services Guides or access obtained from others.

STANDARD ACCESS LINE

A transmission path that connects a customer premises to an AT&T custom service using local exchange company central office switching equipment and a common user transmission path to an AT&T central office.

STATION

A signaling unit and other type equipment at a point on a premises which allows the Customer to establish communication or at which a channel is terminated. Or any location from which Custom Network Service calls can be placed and/or received.

SWITCHING EQUIPMENT

Equipment which performs the function of establishing and releasing connections on a per call basis between stations, telecommunications services, or communications systems.

TERMINAL EQUIPMENT

Any telecommunications equipment other than a multiline terminating system, or communications system connected to Custom Network Service at a Customer's or User's premises.

WIRE CENTER

The building, (1) which houses the local equipment from which channel services are furnished and (2) where cable facilities are terminated which furnishes service within a designated wire center serving area.

- Primary Wire Center

The wire center in a multi-wire center exchange in which most interexchange circuits terminate.

- Serving Wire Center

The wire center from which service is provided to the Customer.

- Wire Center Serving Area

The area of the exchange served by a single wire center.

SECTION 3  
ORIGINAL PAGE 1

SECTION 3 - AT&T COMMERCIAL LONG DISTANCE SERVICE

3.1 DESCRIPTION

**ORIGINAL**

AT&T Commercial Long Distance Service is a switched network service, which permits Customer dialed outward calling from stations within the State of Arizona. AT&T Commercial Long Distance provides for Dial Station calls originated on a line for which the subscriber pays a rate that is described as a business or commercial rate in the applicable local exchange service tariff for switched services.

Intrastate service is an add-on to the interstate AT&T Commercial Long Distance Service and all terms and conditions, features and functions, and any other charges except intrastate usage will apply as described in the AT&T Business Services Guides. This schedule only applies to intrastate usage.

AT&T Commercial Long Distance Service also includes calls billed to Commercial Calling Cards as described below.

The rates and/or regulations for AT&T Commercial Long Distance Service calls other than Dial Station are specified in AT&T's Arizona Telecommunications Tariff, Section 4.

3.2 RATES AND CHARGES

3.2.1 RATE DETERMINATION

The charge for an AT&T Commercial Long Distance Service call is the sum of the initial and additional minutes charge shown in the Price List. If the total computed charges for a call include a fraction of a cent, the fractional amount is dropped. In addition to the above charges, calls billed to Commercial Calling Cards also include a Service Charge as shown in the Price List.

3.2.2 USAGE RATES

See Price List for Current Rates.

3.2 RATES AND CHARGES

**ORIGINAL**

3.2.5 NON-SUBSCRIBER SERVICE CHARGE

A service Charge is applicable to domestic Dial Station, Operator Station, Person-to-Person or Real Time Rated Calls billed to business lines which are presubscribed to an interexchange carrier other than AT&T, or not presubscribed to any interexchange carrier. The service charge is in addition to the usage charges and any applicable service charges for operator handled calls as specified in the Price List.

The Non-Subscriber Service Charge does not apply to: calling card calls, intraLATA calls; conference calls, calls to AT&T Directory Assistance, 800 or 900 telephone numbers; calls using Busy Line Verification or Interruption Services; calls using Telecommunications Relay Service; calls originated from cellular phones; calls billed to business lines which have discontinued presubscription to AT&T but for whom an active billing record still exists in AT&T billing system; calls made via AT&T Prison Collect with Controls Service; or to collect calls accessing the AT&T Network via Collect Calling Discount.

AT&T will credit any Non-Subscriber Service Charges reported by newly presubscribed AT&T Customers during the period between presubscription and administrative processing of the new Customer. AT&T will also credit any Non-Subscriber Service Charges reported by Customers during an F.C.C. reportable incident of service outage by another interexchange carrier. To receive either of these credits, Customers must contact AT&T through an 800 number designated for billing inquiries. The credit will be given either in the form of a bill credit or a Long Distance Certificate, at AT&T's discretion.

Refer to AT&T's Arizona Telecommunications Services Tariff, Section 4 for rate.

3.2.6 DIRECTORY ASSISTANCE

The rates and regulations for charges on calls to Directory Assistance are specified in Section 21 of the Custom Network Services Tariff.

SECTION 4

ORIGINAL PAGE 1

SECTION 4 - AT&T SDN ONENET SERVICE

4.1 DESCRIPTION

AT&T SDN OneNet Service permits outward calling, inward calling or a combination of both from a single or multiple Customer locations in the state of Arizona. The outbound portion of AT&T SDN OneNet Service is a custom switched telecommunications service that permits a Customer to establish a communications path between two stations by using uniform dialing plans. AT&T SDN OneNet Service is available where facilities and operating systems exist. AT&T SDN OneNet customers may choose either AT&T MEGACOM 800 or AT&T 800 READYLINE for their inward calling. AT&T SDN OneNet allows Customers to bundle certain inbound and outbound usage for discounting and billing purposes.

Intrastate AT&T SDN OneNet Service is an add-on to interstate AT&T SDN OneNet Service. All terms and conditions, including service establishment charges, features and functions, discounts, monthly charges and any charges other than intrastate usage charges are described in the AT&T SDN OneNet Service Guide.

4.2 RATES AND CHARGES

AT&T SDN OneNet Service charge is a recurring charge element that is usage-based. This usage charge applies to all completed calls.

AT&T SDN OneNet Service calls are rated using one of the schedules specified in the Price List.

Day, Evening and Night rate periods apply to SDN usage. The rates apply for all days of the week including holidays. Rate periods for Day, Evening and Night are based on the following table:

	MON	TUES	WED	THUR	FRI	SAT	SUN
8:00 AM to * 5:00 PM	DAY RATE PERIOD					EVENING RATE PERIOD	
5:00 PM to * 11:00 PM	EVENING RATE PERIOD						
11:00 PM to * 8:00 AM	NIGHT RATE PERIOD						

\* To but not including

Rounding of Charges

If the computed usage charges or credit for such charges include one-half cent or more, the fraction is rounded up to the next highest cent. Fractions of less than one-half cent are rounded down to the next whole cent, unless the cost of the call would total less than \$.01. The minimum charge for each intrastate OneNet call is \$.01

SECTION 5 - AT&T CUSTOMNET SERVICE

5.1 DESCRIPTION

AT&T CustomNet is a switched telecommunications service which permits customer-dialed calling from single or multiple locations in Arizona to stations within the state. Intrastate service is furnished where facilities and billing capabilities permit, and is complementary to interstate Custom Network Service. All terms and conditions, features, functions, discounts, installation and monthly charges, and any other charges except intrastate usage will apply as described in the AT&T Business Services Guides. The schedules only apply to intrastate usage.

AT&T CustomNet Service is not available, either under this tariff or through any AT&T Contract Tariff or contract referencing this tariff to new or existing Customers who did not have it on order before July 13, 2001. Existing Customers with AT&T CustomNet Service in effect or on order prior to July 13, 2001 may continue under existing conditions.

AT&T CustomNet Simply Better Pricing Option is not available, either under this tariff or through any AT&T Contract Tariff or contract referencing this tariff to new or existing Customers who did not have it on order before July 13, 2001. Existing Customers with AT&T CustomNet Service in effect or on order prior to July 13, 2001 may continue under existing conditions.

SECTION 6 - AT&T UniPlan SERVICE

6.1 DESCRIPTION

AT&T UniPlan Service is a Custom Network Telecommunications Service which permits outward calling from single or multiple customer locations in the state of Arizona. Intrastate service is complementary to interstate service and all terms and conditions, features and functions, installation and monthly charges, and any other charges except for intrastate usage will apply as described in the AT&T Business Services Guides. This schedule applies to intrastate usage. The mileage for AT&T UniPlan Service calls is the distance in airline miles measured between the rate centers associated with the originating and terminating stations. Each rate center has a unique set of assigned vertical and horizontal (V&H) coordinates as described in the AT&T Business Services Guides. These coordinates are used for calculating mileage.

An Integrated Outbound and Inbound Calling Option, is also available. This option is an add-on to the Interstate Integrated Outbound and Inbound Calling Option. All terms and conditions and discounts are described in the AT&T Business Services Guides.

An service Flat Rate Pricing Option (FRPO), is also available. This option is an add-on to the Interstate service Flat Rate Pricing Option (FRPO). The FRPO intrastate usage price schedules provide postalized prices for Inward, Outward and AT&T UniPlan Service calling Card. All terms and conditions and discounts are described in the AT&T Business Services Guides.

AT&T UniPlan Service OneRate Pricing Option IV-R (ORPO IV-R) is another option that permits customers to select an alternate usage rate schedule in lieu of the rates specified for the standard ORPO. The AT&T UniPlan Service ORPO IV-R intrastate rate schedules provide postalized rates for Inward calling, Outward calling and Calling Card calls. The AT&T UniPlan Service ORPO IV-R customer must subscribe to the interstate AT&T UniPlan Service ORPO IV as described in AT&T's Business Services Guide. The AT&T UniPlan Service ORPO IV-R customers must subscribe to a new AT&T UniPlan Service 12- 24- or 36-month Term Plan as described in the AT&T Business Services Guides.

SECTION 7 - AT&T VIRTUAL TELECOMMUNICATIONS SERVICE

7.1 DESCRIPTION

AT&T Virtual Telecommunications Network Service (VTNS) is a custom-designed voice telecommunications service offering, designed to meet the needs of customers desiring an integrated arrangement of network services. AT&T VTNS provides both inbound and outbound calling capability. Intrastate service is an add-on to interstate AT&T VTNS. Customers shall be entitled to the intrastate discounts to the extent set forth in their interstate VTNS contract arrangements. These intrastate discounts shall apply against Customer's intrastate charges and shall not be applied against a Customer's interstate charges. All terms and conditions, features and functions, discounts, installation charges, monthly rates and charges other than intrastate switched voice usage charges are described in AT&T's Business Services Guides. This schedule applies to intrastate usage. The mileage for VTNS calls is the distance in airline miles measured between the rate centers associated with the originating and terminating stations. Each rate center has a unique set of assigned vertical and horizontal (V&H) coordinates as described in the AT&T Business Services Guides. These coordinates are used for calculating mileage.

Virtual Telecommunications Network Service (VTNS) Toll-Free Multimedia Service allows a VTNS Customer to add on a call-by-call basis, digital capabilities (at speeds of 56 kbps or 64 kbps where available) as well as voice, on one Port Access Telephone Number or Customer-specified Non-port Telephone Number. Intrastate VTNS Toll-Free Multimedia Service is an add-on to interstate VTNS Toll-Free Multimedia Service. All terms and conditions, features and functions, discounts, installation charges, monthly rates and charges other than intrastate charges, may be found in the AT&T Business Services Guides. This schedule applies to intrastate usage. For access to the digital portion of VTNS Toll-Free Multimedia Service, the call originator is responsible for obtaining digital access where available. Digital capabilities will generally be available where the LECs make access available. An AT&T ISDN PRI per AT&T Business Services Guides is required on the terminating end. The switched digital capability of VTNS Toll-Free Multimedia Service is described in AT&T Business Services Guides.

7.2 RATES AND CHARGES

7.2.1 USAGE RATES

VTNS calls are rated using one of the following schedules.

A. VTNS Outbound Voice Rate Schedules

1. Schedule A0

These schedules apply to Direct Dialed calls between two on-network stations which use special access or any other intrastate calls that would have been rated under Rate Schedule A in the Customer's VTNS Option in the AT&T Business Services Guides, if such calls had been interstate calls.

See Price List for Current Rates.

2. Schedule B0

These schedules apply to Direct Dialed calls between an on-network station which uses special access and either an on-network station that uses local exchange service access line or an off-network station or any other intrastate calls that would have been rated under Rate Schedule B in the Customer's VTNS Option in the AT&T Business Services Guides, if such calls had been interstate calls.

See Price List for Current Rates.

3. Schedule C0

These schedules apply to Direct Dialed and Calling Card calls between two on-network stations which use local exchange service access lines, or between an on-network station which uses a local exchange service access line and an off-network station, or between two off-network stations or any other intrastate calls that would have been rated under Rate Schedule C in the Customer's VTNS Option in the AT&T Business Services Guides, if such calls had been interstate calls.

SECTION 8 ACC BUSINESS SERVICE

8.1 DESCRIPTION

ACC Business Service is a Custom Network Service that permits Customer-Dialed outward calling, inward calling and calling card calls from one or more switched or dedicated customer locations in the state of Arizona. ACC Business Service is an add-on to interstate ACC Business Service, which is described in the AT&T Business Services Guides. All terms and conditions, administrative and operational functions, features and functions, discounts, and any charges other than the intrastate usage charges are specified in the AT&T Business Services Guides.

ACC Business Service is a non-AT&T branded monthly service, which permits customers to contract for one of six basic rates embedded in a monthly revenue commitment. AT&T's marketing materials and billing statements for ACC Business Service will identify ACC Business as a "division of AT&T." The commitments are as follows:

SWITCHED ACCESS

- 12 Month Basic Rates Based on \$100 Revenue Commitment\*
- 15 Month Basic Rates Based on \$150 Revenue Commitment\*
- 12 Month Saver Rates Based on \$100 Revenue Commitment\*
- 15 Month Saver Rates Based on \$150 Revenue Commitment\*

\* ACC Business Service Switched Access term rate plans referenced above are not available under this price list or through any AT&T Contract Tariff or contract referencing this price list to new Customers. Existing Customers of these plans in effect or on order prior to March 1, 2003 will continue under existing rate plan.

ACC Business Service Term Plans are described in the AT&T Business Services Guides.

9.2 RATES AND CHARGES

9.2.1 Network Connection Call Rating

ABN Service calls are differentiated and rated according to the access arrangement ordered by the Customer as follows:

Fully Connected: The transmission path for outbound calls must originate AND terminate via Company-provided, Company-affiliated and/or Company-owned access facilities. The transmission path for inbound toll-free calls must originate AND terminate via Company-provided, Company-affiliated and/or Company-owned access facilities.

Partially Connected: The transmission path for outbound calls must originate OR terminate via Company-provided, Company-affiliated and/or Company-owned access facilities. The transmission path for inbound toll-free calls must originate OR terminate via Company-provided, Company-affiliated and/or Company-owned access facilities.

Standard: The transmission path neither originates nor terminates via Company-provided, Company-affiliated and/or Company-owned access facilities.

SECTION 9 - AT&T BUSINESS NETWORK SERVICE

9.2 RATES AND CHARGES (Cont'd)

9.2.2 ABN Advantage Plan

Customers subscribing to ABN Advantage Plan must also subscribe to ABN Advantage Plan local service as describe in Section 7 of AT&T's Local Exchange Services tariff.

This service is a combined interstate/intrastate offering. See the AT&T Business Services Guide for a complete service description, explanation of service usage, and terms and conditions.

9.2.3 Monthly Minutes of Use (MOU) Caps

Long Distance usage above the specified MOU Cap is not included in the Monthly Recurring Charge, but will be billed at a per minute rate as specified in the PRICE LIST. The following MOU Caps apply per account, depending on the access used:

Access Type	MOU Cap
DS-1/ISDN PRI	25,000 MOU per month
Trunk	1,250 MOU per month
Line	750 MOU per month

9.2.4 USAGE CHARGES

SECTION 10  
ORIGINAL PAGE 1

SECTION 10 - AT&T ALL IN ONE SERVICE

10.1 DESCRIPTION

AT&T All In One Service is a custom network service that permits Customer dialed calling from and to single or multiple Customer locations in the State of Arizona.

AT&T All In One Service is an add-on to interstate AT&T All In One Service and all terms and conditions described in the AT&T Business Services Guides, including installation and monthly charges, features and functions, and any other charges except intrastate usage, are incorporated here by reference and shall apply to intrastate AT&T All In One Service. AT&T All in One Service is furnished where facilities and billing capabilities permit.

10.2 AVAILABILITY

AT&T All In One Service is available via Local Exchange switched access and via cellular access. The Customer is responsible for obtaining the Local Exchange Service Access Line. The Local Exchange Service Line must be pre-subscribed to AT&T as the primary interexchange carrier. The Customer's long distance cellular access must be pre-subscribed to AT&T as the primary interexchange carrier.

AT&T All In One Service is provided on a monthly basis and the Customer will receive a single monthly bill for all locations billed to the same Main Billed Account. The Customer is financially responsible for all locations included under the Customer's Main Billed Account.

SECTION 10  
ORIGINAL PAGE 2

SECTION 10 - AT&T ALL IN ONE SERVICE

10.3 RATES AND CHARGES

This section contains the rates and charges for AT&T All In One Service.

10.3.1 Application of Charges

Usage charges apply to all completed calls and are based upon the applicable rate schedules. Usage charges are billed in arrears. The chargeable time for All In One Service calls is determined by the duration of the call. However, All In One Service calls have a 60-second minimum time requirement.

10.3.2 Rate Methodology

1) Rate Plans J

For Inward and Outward InterLATA and IntraLATA and Customer Dialed AT&T CIID/891 Calling Card direct dial call types, the rate per minute applies for all days of the week including holidays. The chargeable time for All In One Service calls is determined by the duration of the call, billed according to the number of seconds (see example below). All In One Service calls have a 60-second minimum time requirement. Rounding to the nearest whole cent is employed.

Example: (\$0.1000 per minute rate):

Length of call in seconds: 124

Divide by 60 seconds and carry to 4 decimal places:  $124 \div 60 = 2.0666$

Multiply by per minute rate and carry to 4 decimal places:  $2.0666 \times \$0.1000 = \$0.2066$

Round to nearest whole cent

2) Rate Plans A, B\*, C, D, E#, F, K#, L and Multi-Saver

Calls for Rate Plans F, K and L are billed in full minute increments. Each call is subject to a 60-second minimum time requirement and is rounded to the next full minute. Rounding to the nearest whole cent is employed.

\* AT&T All In One Rate Plan B may no longer be ordered after November 1, 2004. Existing customers with Rate Plan B in effect or on order prior to November 1, 2004 may continue their current plan under existing conditions.

# Effective November 1, 2004 AT&T All In One Rate Plans E and K are withdrawn.

3) AT&T All In One Advantage<sup>sm</sup> Plan

Customers subscribing to AT&T All In One Advantage Plan must also subscribe to AT&T All In One Advantage Plan local service as described in AT&T's Business Services Guide. AT&T All In One Advantage Plan may not be ordered in conjunction with any other All In One Rate Plan.

This service is a combined interstate/intrastate offering. See the AT&T Business Services Guide for a complete service description, explanation of service usage, and terms and conditions.

4) AT&T All In One Advantage Term Plan

Customers who subscribe to AT&T All In One Advantage Term Plan for local and intrastate service must also subscribe to AT&T All In One Advantage Term Plan for interstate service as described in AT&T's Business Services Guide. AT&T All In One Advantage Term Plan may not be ordered in conjunction with any other All In One Rate Plan.

5) AT&T All In One Preferred Option Plan<sup>sm</sup> (Plan L)

Customers subscribing to AT&T All In One Preferred Option Plan must also subscribe to AT&T All In One Preferred Option Plan local service as described in AT&T's Business Services Guide. AT&T All In One Preferred Option Plan may not be ordered in conjunction with any other All In One Rate Plan.

This service is a combined interstate/intrastate offering. For a complete service description, explanation of service usage, and terms and conditions of the service offering, see the AT&T Business Services Guide located at <http://www.att.com/serviceguide/business>.

EFFECTIVE: April 1, 2005

BY: Leslie Buford-Tariff Administrator

SECTION 11  
ORIGINAL PAGE 1

SECTION 11 SWITCHED DIGITAL SERVICE

11.1 APPLICATION

Switched Digital Service is furnished for the switching and transmission of simultaneous two-way 56/64 kbps and 384 kbps digital signals. It consists of a Common User Network that is furnished between designated AT&T Central Offices.

Switched Digital Service calls are furnished between access lines served by the same Switched Digital Service Central Office or between different Switched Digital Service Central Offices.

Calls between two Customer premises within the state, served by the same Switched Digital Service Central Office are calls between access lines. At the kbps Switched Digital Central Office the access lines are switched together to complete the call. The usage is furnished at the rates stated in 11.4 following.

11.2 REGULATIONS

Regulations for Switched Digital Service following are in addition to those contained in Section 2.

Switched Digital Service is fully supported by the Carrier through engineering, installation and maintenance efforts. The Carrier will assure that Switched Digital Service functions properly within its specified transmission and switching parameters.

When Customer equipment or a Customer communications system is connected to a Switched Digital Service access line, the connection is subject to the regulations of the tariff under which the access line is provided. Technical Publication - PUB 41458 can be obtained by the Customer as an aid in selecting the appropriate interface. (See Technical Publication Information)

11.2.1 AVAILABILITY OF SERVICE

Switched Digital Service is available 24 hours a day, 7 days a week.

The Central Offices presently equipped to furnish Switched Digital Service have been designated by the Carrier and are identified in AT&T's Business Services Guide.

A call can access the Switched Digital Service network at designated AT&T Central Offices via an access line. Access lines are provided as set forth in 11.5 following.

ISSUED: April 1, 2005

EFFECTIVE: April 1, 2005

BY: Leslie Buford-Tariff Administrator

SECTION 11  
ORIGINAL PAGE 2

SECTION 11 SWITCHED DIGITAL SERVICE

11.2 REGULATIONS (Cont'd)

11.2.2 ENGINEERING

The Carrier will engineer to the specifications and parameters of the service provided. The Carrier publishes certain technical information that the Customer can obtain in the form of Technical Publications. (See Technical Publication Information)

11.2.3 INSTALLATION

When installation of a component is required, it will be installed subject to the availability of installation personnel and equipment. Installations will usually be made during normal working hours.

11.2.4 MAINTENANCE

The Carrier will maintain and repair the services that it provides.

11.3 MILEAGE MEASUREMENTS

11.3.1 MILEAGE DETERMINATION

To determine the airline mileage between any two AT&T Communications Central Offices, see AT&T Business Services Guides, proceed as follows:

- a. Obtain the "V" and "H" coordinates for each Central Office.
- b. Obtain the difference between the "V" coordinates of the two points. Obtain the difference between the "H" coordinates.
- c. Square each difference obtained in B. preceding.
- d. Add the squares of the "V" difference and the "H" difference obtained in B. preceding.
- e. Divide the sum of the squares obtained in d. preceding by 10. Round to the next higher whole number if any fraction is obtained.
- f. Obtain the square root of the result obtained in e. preceding. This is the airline distance in miles (Fractional miles are rounded to the next higher whole number).

ISSUED: April 1, 2005  
EFFECTIVE: April 1, 2005  
BY: Leslie Buford-Tariff Administrator

SECTION 11  
ORIGINAL PAGE 3

SECTION 11 SWITCHED DIGITAL SERVICE

11.4 RATES AND CHARGES

The Carrier will not allocate the usage of a Custom Network Service or the charges for such usage and is not responsible for the way the Customer may allocate usage or charges among multiple users. The charge for Switched Digital Service consists of a recurring charge element that is usage based. This usage charge applies to all completed calls. The applicable usage charges also depend on whether the call is between (1) access lines (two-point), (2) Switched Digital Service Central offices (two-point or multipoint) or (3) an access line and an AT&T Central office (multipoint). Mileage rates vary by airline mileage between central offices and by the time of day and day of week that a call is placed. In addition, a switched access usage charge will apply to all calls using switched access lines.

The rates for a call between access lines within the same AT&T Communications Switched Digital Service Central Office are the zero airline mileage rates.

The following applies for a Switched Digital Service call:

The initial period is the rate element for the initial 30 seconds, or fraction thereof, of a call.

The additional period is the rate element used to bill for the chargeable time when a call continues beyond the initial period. The additional period begins when the initial period ends. Additional period rates apply to each additional six seconds, or any fraction thereof, that chargeable time continues beyond the initial period.

See Price List for Current Rates.

ISSUED: April 1, 2005  
EFFECTIVE: April 1, 2005  
BY: Leslie Buford-Tariff Administrator

SECTION 11  
ORIGINAL PAGE 4

SECTION 11 SWITCHED DIGITAL SERVICE

11.5 ACCESS LINES

A special access line or a switched access line is required to connect a Customer's premises to a Switched Digital Central Office.

Access lines are obtained from AT&T's Business Services Guide.

Access lines provided by AT&T Communications for use with Switched Digital Service are subject to the regulations of the tariffs under which they are furnished.

Access lines for use with Switched Digital Service may also be provided by the Customer and must be electrically compatible. The Carrier is not responsible for the performance and maintenance of access lines provided by others. The Customer must make all the arrangements concerning the connected service with its provider of the service.

Switched access lines are available as specified in AT&T's Business Services Guide.

11.6 CREDIT ALLOWANCES FOR INTERRUPTIONS

A credit allowance will be made for a Switched Digital Service call, which is interrupted due to the failure of a component, furnished under this tariff which results in:

- One-way transmission (one party unable to transmit to the other), or
- Involuntary disconnection (cut-off) of the call.

To receive the proper credit, the Customer must notify the Carrier and furnish the called number, the trouble experienced and the approximate time the call was placed. Credit allowances for access lines are as set forth in the tariffs under which they are furnished.

When a call, which is billed under this tariff, is interrupted due to a cut-off, one-way transmission, or poor transmission condition, the Customer will receive credit equivalent to six seconds (i.e., the last six seconds of the call).

ISSUED: April 1, 2005

EFFECTIVE: April 1, 2005

BY: Leslie Buford-Tariff Administrator

SECTION 11  
ORIGINAL PAGE 5

SECTION 11 SWITCHED DIGITAL SERVICE

11.6 CREDIT ALLOWANCES FOR INTERRUPTIONS (Cont'd)

When a wrong number is reached, a credit equivalent to the charge for the initial period will be granted when the Customer reports the situation to the Carrier.

The chargeable time for a call is determined by the duration of the call. Chargeable time includes the initial period plus the additional time involved, if any, and is determined as follows:

Chargeable time begins when connection is established between an originating Customer's premises and a terminating Customer's premises. A connection is considered established when a call terminates in, or passes through, the first Customer equipment at the Customer's premises. It is the Customer's responsibility to furnish appropriate answer supervision so that chargeable time may begin.

Chargeable time ends when the originating Customer's premises disconnects. If the terminating Customer's premises disconnects but the originating Customer's premises does not, chargeable time ends when the connection is released by automatic timing equipment in the telecommunications network.

Answer Supervision must be provided by Customer equipment so that the measure of chargeable time begins upon the delivery of the call to the Customer equipment and ends upon termination of the call by the originating Customer's premises.

11.6.1 CREDIT ALLOWANCE DOES NOT APPLY:

When interruptions caused by the negligence of the Customer or others authorized by the Customer to use the Customer's service.

When interruptions of service because of the failure of power, equipment, systems or connections not provided by the Carrier.

When interruptions during periods when the Customer elects not to release the service for testing and/or repair.

When interruptions during any period when the Customer or User has released an access line for maintenance or rearrangement purposes, or for the implementation of a Customer order.

When interruptions during periods when the Customer elects not to release an access line for testing and/or repair.

SECTION 24 - SOFTWARE DEFINED NETWORK SERVICES

24.1 APPLICATION

Custom Network Services are offered to meet Customer needs for specialized telecommunications requirements of Customers having a need to communicate between geographically dispersed locations.

Software Defined Network Service is a custom switched telecommunications service that permits a Customer to establish a communications path between two stations by using uniform dialing plans. Customer's stations are connected by access lines to designated AT&T Central Offices as set forth in AT&T Business Services Guides. Software Defined Network service is a service designed to meet the telecommunications requirements of Customers having a need to communicate between many geographically dispersed locations.

Basic SDN is not available, either under this tariff section or through any AT&T Contract Tariff or contract referencing this tariff section, to new or existing Customers who did not have it on order on or before July 31, 2001. Existing Customers with Basic SDN or Custom SDN in effect or on order prior to July 31, 2001 may continue under existing conditions. AT&T Contract Tariffs or contracts in effect or on order on July 31, 2001, which include Basic SDN shall also continue under existing conditions. Availability of Basic SDN to customers taking the Service pursuant to an AT&T Contract Tariff or contract will not extend beyond the current term of the applicable Contract Tariff or contract.

24.2 REGULATIONS

Regulations for Custom Network Services following are in addition to those contained in Section 2. Custom Network Services are fully supported by the Carrier through engineering, installation and maintenance efforts. The Carrier will assure that each service functions properly within its specified transmission and switching parameters.

AT&T may offer guarantees that it will bill Customers within a specified period of time for certain SDN calls as detailed in AT&T's Business Services Guide.

SECTION 24 - SOFTWARE DEFINED NETWORK SERVICES

24.2 REGULATIONS (Cont'd)

24.2.1 TRANSFER OR ASSIGNMENT

Custom Network Services may be transferred or assigned to a new Customer. See AT&T's Business Services Guide.

24.2.2 ACCESS LINES

A Custom Network Service access line connects a Customer premises or a Customer's private network to a Custom Network Service. There are two types of access lines: standard access and special access.

A. STANDARD ACCESS LINES

The Customer's premises may be connected to a AT&T Central Office using a standard access line. The rates and regulations for a standard access line are found in AT&T's Business Services Guide.

B. SPECIAL ACCESS LINES

The Customer's premises may be connected to a AT&T Central Office using special access and an access connection. The rates and regulations for special access are found in AT&T's Business Services Guide. The rates and regulations for the appropriate access connection are found in AT&T's Business Services Guide.

SECTION 24  
ORIGINAL PAGE 3

SECTION 24 - SOFTWARE DEFINED NETWORK SERVICES

24.2 REGULATIONS (Cont'd)

24.2.3 ENGINEERING

The Carrier will engineer to the specifications and parameters of the service provided.

24.2.4 INSTALLATION

When installation of a component is required, it will be installed subject to the availability of installation personnel and equipment. Installations will usually be made during normal working hours.

24.2.5 MAINTENANCE

The Carrier will maintain and repair the services that it provides.

24.3 MILEAGE MEASUREMENTS

The mileage for Software Defined Network calls is the distance in airline miles measured between the rate centers associated with the originating and terminating stations for Schedule A, B & C. Each rate center has a unique set of assigned vertical and horizontal (V&H) coordinates as described in AT&T's Business Services Guide. These coordinates are used for calculating mileage.

Airline mileage is calculated as specified in AT&T Business Services Guides.

The Carrier will not allocate the usage of a Custom Network Service or the charges for such usage and is not responsible for the way the Customer may allocate usage or charges among multiple Users.

24.4 RATES AND CHARGES

Software Defined Network service charge is a recurring charge element which is usage-based. This usage charge applies to all completed calls.

24.4.1 BASIC SERVICE

See AT&T Business Services Guides.

ORIGINAL PAGE 4

SECTION 24 - SOFTWARE DEFINED NETWORK SERVICES

24.4 RATES AND CHARGES (Cont'd)

24.4.2 RATE SCHEDULES

Software Defined Network calls are rated using one of the following schedules. The charges for all calls during a billing month will be totalled. If the total charge includes a fraction of a cent, the fraction is rounded down to the next whole cent (e.g., \$4,101.356 would be rounded down to \$4,101.35). AT&T Software Defined Network Service is also provided with Connected Pricing as described in the AT&T's Business Services Guide.

Day, Evening and Night rate periods apply to SDN usage. The rates apply for all days of the week including holidays. Rate periods for Day, Evening and Night are based on the following table:

	MON	TUES	WED	THUR	FRI	SAT	SUN
8:00 AM to * 5:00 PM	DAY RATE PERIOD					EVENING RATE PERIOD	
5:00 PM to * 11:00 PM	EVENING RATE PERIOD						
11:00 PM to * 8:00 AM	NIGHT RATE PERIOD

SECTION 36 - AT&T STATE CALLING SERVICE\*

36.1 DESCRIPTION

AT&T State Calling Service is a switched telecommunications service furnished only to state government entities which permits communications between stations located within Arizona. AT&T State Calling Service in Arizona is complementary to AT&T's interstate State Calling Service and all terms and conditions, features, functions, credits, discounts, installation and monthly and any other charges except for intrastate usage will apply as described in the AT&T Business Services Guides. This schedule applies to intrastate usage. The mileage for State Calling Service calls is the distance in airline miles measured between the rate centers associated with the originating and terminating stations. Each rate center has a unique set of assigned vertical and horizontal (V&H) coordinates as described in the AT&T Business Services Guides. These coordinates are used for calculating mileage.

36.2 RATES AND CHARGES

Rates for AT&T's State Calling Service are only available to Arizona state government entities that subscribe to the interstate service.

Rates will be above the incremental costs for the service.

- \* SCS Option 1 is not available, either under this tariff section or through any AT&T MSA, ASA or contract referencing this section, to new or existing Customers who did not have it on order on or before September 15, 2003. Existing Customers with SCS Option 1 in effect or on order prior to September 1, 2001 may continue under existing conditions. AT&T MSA, ASA or contracts in effect or on order on September 15, 2003, which include SCS Option 1 shall also continue under existing conditions. Availability of SCS Option 1 to Customers taking the Service pursuant to an AT&T MSA, ASA or contract will not extend beyond the current term of the applicable MSA, ASA or contract.

SECTION 37 - AT&T SEAMLESS LINK SERVICE

37.1 DESCRIPTION

AT&T Seamless Link Service may no longer be ordered after January 15, 2001. Existing customers with AT&T Seamless Link Service in effect or on order prior to January 15, 2001 may continue under existing conditions.

AT&T Seamless Link is a service which permits outward calling from a single or multiple locations of the Customer. AT&T Seamless Link Service also includes inward calling. AT&T Seamless Link Service capability is available where facilities, operating systems, and billing exists. AT&T Seamless Link Service is an automatic add-on to interstate AT&T Seamless Link Service and, except as specified below, all terms and conditions, features and functions, discounts and any charges are as specified in AT&T Business Services Guides.

37.2 REGULATIONS

Access to AT&T Seamless Link Service is available via switched access. The Customer is responsible for obtaining the Local Exchange Service Access Line from a Local Exchange Company with which AT&T has made cooperative business arrangements for operational functions such as bill preparation, service provisioning and customer support. The Local Exchange Service Access Line must be pre-subscribed to AT&T as the primary interexchange carrier.

Seamless Link Service is provided on a monthly basis and the Customer will receive a single monthly bill for all locations billed to the same Main Billed Account. The Customer is financially responsible for all locations included under the Customer's Main Billed Account.

37.3 RATES AND CHARGES

SECTION 38  
ORIGINAL PAGE 1

SECTION 38 - WIDE AREA TELECOMMUNICATIONS SERVICE (WATS)\*

38.1 APPLICATION

Wide Area Telecommunications Service (WATS), by use of a dedicated access line and the public switched network, provides for dial-type communications between a WATS termination and other exchanges within the State of Arizona.

38.1.1 ACCESS LINES

A dedicated access line is a line which extends from the Customer's premises to a central office. Each line will be arranged at the Customer's option for either Outward or 800 Service, but not for both.

A. OUTWARD WATS

The Outward WATS Customer is furnished a WATS access line arranged for outward calling only. Outward WATS provides for directly dialed calls from a WATS termination to other exchanges in the State of Arizona.

B. 800 SERVICE

The 800 Service access line is arranged for inward calling only. 800 Service provides for dial-type calling to a WATS termination from other exchanges in the State.

\* Effective June 19, 1998 AT&T WATS/800 Service is not available to new Customers. Existing Customers may continue their current service under existing conditions but cannot make any moves, changes or additions to this service.

EFFECTIVE: April 1, 2005

BY: Leslie Buford-Tariff Administrator

SECTION 38  
ORIGINAL PAGE 2

SECTION 38 - WIDE AREA TELECOMMUNICATIONS SERVICE (WATS)

38.2 REGULATIONS

Regulations for WATS listed below are in addition to those contained in Section 2.

WATS calls are dialed and completed without the assistance of an operator except when facilities or conditions do not allow Customer dial completion or when an interrupted call is reestablished by an operator.

38.2.1 CONNECTION TO OTHER SERVICES

Connection of WATS to other services is permitted on a switched basis only. No permanent connection between WATS and other services may be established.

38.2.2 USE

WATS may be used by the Customer or others authorized by the Customer. Orders involving installation, rearrangement, billing or discontinuance of service will be accepted by the Carrier only from the Customer.

38.2.3 TIMING OF CALLS

Chargeable time begins when connection is established between a WATS station, the calling or called station, and ends when the calling station "hangs up" thereby releasing the network connection. If one station "hangs up" but the other does not, chargeable time ends when the telecommunications network connection is released by automatic timing equipment.

For billing purposes, a Minimum Average Time Requirement (MATR) applies. If the average duration per call in any rate period during a billing cycle is less than the MATR, billing will be based on an average duration of the MATR per completed call.

The minimum service period for WATS is one day.

SECTION 47 - AT&T-OWNED PAY TELEPHONES

47.1 DESCRIPTION

AT&T-owned pay telephones are public pay telephones owned, operated and maintained by AT&T. Services through the use of AT&T-owned pay telephones are subject to all regulations imposed by the Arizona Corporation Commission on the intrastate transmission of telecommunications services. The pay telephones are installed in locations at the discretion of AT&T. The services offered to the customers are described in Section 4 of this tariff.

47.2 REGULATIONS

Service from AT&T-owned pay telephones is provided to all Customers on a non-discriminatory basis using Federal Communications Commission registered equipment, which has been installed and maintained in accordance with generally accepted telecommunications industry standards and applicable state and local codes.

AT&T-owned pay telephones are hearing-aid compatible and accessible to persons with disabilities in compliance with federal and state laws.

AT&T-owned pay telephones are installed in well-lighted locations and will be maintained in good working order. AT&T will respond promptly to reports of equipment failure and other reasonable complaints.

Instructions on how to make a call, report service difficulties and obtain credits are displayed on or near each AT&T-owned pay telephone.

Access to emergency 911 service is provided free from all AT&T-owned pay telephones, without the use of a coin and without time limitations. In those areas where 911 service is not available, access to the local emergency service providers will be provided free of charge and without time limitations.

Coin-activated AT&T-owned pay telephones will accept nickels, dimes and quarters (U.S coins). Coins will be returned for uncompleted calls. Other methods of payment are covered in Section 4 of this tariff.

AT&T-owned pay telephones allow access to alternative toll carriers. 1-800, 10xxx-0+ and 950 access will be provided at no charge to the calling party.

Time limits, if any on local calls without additional coins, will be in accordance with the tariffs of the serving Local Exchange Company.

47.3 RATES AND CHARGES

Charges for Intrastate Message Toll Service, Card and Operator Handled Calls are specified in Section 4 of AT&T's Telecommunications Services Tariff.

SECTION 49 - AT&T PRISON COLLECT WITH CONTROLS SERVICE

49.1 DESCRIPTION

AT&T Prison Collect with Controls Service is an AT&T Long Distance Service that permits inmates to place collect calls originated over the AT&T Network from authorized telephone numbers in a Prison Administration controlled environment. The terms and conditions of interstate Prison Collect with Controls Service as described in the interstate plan apply to this service.

49.2 RATES AND CHARGES

49.2.1 Station-to-Station

See Price List for Current Rates.

49.2.2 Bill Statement Fee

Customers who receive their intrastate AT&T Prison Collect calls charges as part of their local telephone company bill, will be assessed a Bill Statement Fee as specified in the Price List. This fee is in addition to all other rates and charges.

AT&T will not apply the Bill Statement Fee if any of the following apply:

- You receive your AT&T bill directly from AT&T via paper bill or via an online bill.
- You qualify as a "low income" subscriber, defined as one who meets the eligibility requirements of a low-income plan (e.g., lifeline, Link-Up, etc.) offered by the local telephone company. You must notify AT&T prior to January 28, 2005 of your eligibility and provide the AT&T required certification of eligibility to AT&T.
- You subscribe to AT&T Price Protection Plan, or AT&T One Rate® Basic plan, or AT&T One Rate Simple Plan.
- You inform AT&T that you are blind or visually impaired and have your telephone bill issued in Braille; or you are a customer in Missouri and you request your AT&T invoices in large print.
- Your local telephone company is AT&T.

See Price List for Current Rates.

SECTION 50  
ORIGINAL PAGE 1

SECTION 50 - AT&T CORRECTIONAL VALUE PLAN\*

50.1 DESCRIPTION

This plan offers Customers a discount on eligible Collect calls received from inmates at correctional institutions that are subscribed to AT&T Prison Collect with Controls Service. Customers who currently have or choose AT&T as their Primary Long Distance Carrier may enroll in this plan by completing and returning a written subscription form to AT&T, calling a designated 800 number to subscribe, or by enrolling during a marketing contact with AT&T.

Eligible calls for this plan are intrastate Collect calls that originate from correctional institutions that are subscribed to AT&T Prison Collect with Controls service and are billed to the Customer's main residential account.

This plan is an add-on to the interstate AT&T Correctional Value Plan, which has a monthly interstate recurring charge and is available where billing capabilities exist. All other terms, conditions and Customer eligibility under this plan are specified in the consumer AT&T Service Guide.

\* AT&T Correctional Value Plan will no longer be available for enrollment to new Customers as of June 28, 2004.
